Dear Nicole, Linda and Garry-

The SJRWP portal folder called "SJRWP Site – Working Documents" is now accessible to you. You can open this folder to gain access to draft documents, including the Preliminary Site Characterization Report.

Attached is a file with the instructions for accessing the folder. I noted that Garry and Linda already have accounts in another folder. If you have used that folder, you will have been prompted to change your password, and hopefully you have that password saved somewhere. If not, please let me know.

Nicole has an account with a different email address than the above. To access the "SJRWP Site – Working Documents" please use the email address in this message. You will be prompted to change your default password, as described in the attached.

I am available by cell or email today if you need to contact me with questions.

Jennifer

Subject: RE: SJRWP Preliminary Site Characterization Report is posted

Gary – I have asked Integral to set up the access as requested. They will send the appropriate information and passwords for the access as soon as is practical.

Thanks,
David

Subject: Fw: SJRWP Preliminary Site Characterization Report is posted

David,

As we discussed this morning, please set up a temporary, two week portal access for the draft and final San Jacinto documents for Nicole Hausler (ncass@poha.com), Linda Henry (lherry@poha.com) and Garry McMahan (gmcman@poha.com). The purpose of this temporary access is to allow time for completion of the Memorandum of Understanding between the EPA and the Port of Houston Authority.

Thanks,

Gary Miller, P.E.
